Subject: SB 1541

Hi there,

I am writing to ask you to oppose SB 1541. Cleaner Air Oregon is designed protect public health. We need to fund these CAO rules to avoid increased costs from the burden of environmental illnesses in current and future Oregonians. SB 1541 is an attempt to weaken the health-based standards set by Cleaner Air Oregon to make them more palatable for certain industries and their legal counsel and influence peddlers. In particular, the clause on page 3 that bars the public from using public information to seek redress of grievances through litigation is anti-democratic and contradictory to the functioning of a legitimate state.

Please oppose SB 1541.
