

Dear House and Committee Members,

I am writing to urge you to support the Clean Energy Jobs Bill, SB1507 and pass this important legislation this session.

Market mechanisms are proven means to motivate behavior change and motivate private sector innovation and investment. It just makes sense to use the powerful tools of pricing and marketing to move Oregon away from polluting technologies and create investments in clean energy jobs.

SB 1507 leverages the experience of many states and other countries in creating a robust and efficient system to manage carbon pollution and stimulate investment.

Now is the time to act. Please support Clean Energy and Jobs and pass SB 1507.

Yours Sincerely,

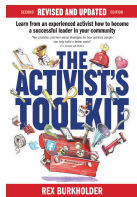

Rex Burkholder
