**Testimony of the Confederated Tribes of the Umatilla Indian Reservation
Joint Transportation Committee, Oregon Legislative Assembly
HB 4060 February 12, 2018**

Chairs Beyer and McKeown and members of the Joint Transportation Committee:

HB 4060 contains language at the request of the Confederated Tribes of the Umatilla Indian Reservation that clarifies that seat belt regulations for tribal transit service providers like KAYAK should be the same as for Oregon mass transit districts. Our assumption is that tribal transit was not contemplated in the original construction of this statute. This is corrected by the language on line 19 of page 28 of HB 4060, as introduced. The Confederated Tribes of the Umatilla Indian Reservation request that the committee moves forward with this language to create equity in regulation between tribal transit and mass transit districts.

Thank you for your time and consideration. _
