America is a dog loving nation. Many people have more than one dog because of the necessity to provide homes for those overbreed who do not meet a 'standard.' We must contend with at home breeders who embark upon this venture just for money, as well. Kindly, lead this country with progressive (which must include the humane factor) laws that work for the benefit of all of Gods' creatures.

Most Sincerely, Ms. Alison Dorian Sent from [Mail](#) for Windows 10
