Dear Senate Committee on Environment and Natural Resources,

I support SB1508 to fund DEQ, but appose SB1541.

It is my understanding that SB1541 is highly supported by industrial lobbyists and will strip DEQ of their full authority to regulate. In an era when industry receives numerous breaks at the expense of the majority of voting people, This is not acceptable. We need to recognizes our weaknesses, that Oregon is not a green state, and start on the pathway to improvement.

Regards,
Stephanie Salisbury
