Subject: SB 1508/HB 4002/SB 1541 Fee surcharge for toxic air program
Date: Monday, February 12, 2018 9:49:16 PM

Please vote NO on these bills.

Fee Surcharges for permits do not specify the density of pollution, types, or any further information other than "air contaminants" in these bills.

The State of Oregon is feeing and taxing its self to death.
While there may be:

SB 1508/HB 4002/SB 1541 Fee surcharge for toxic air program *pursuant* to ORS 468.065, there is "NO NEED TO HAVE YET ANOTHER "EMERGENCY" CLAUSE on this bill.

This bill should not be passed. It has not been needed before, there is no need for it now. You are taxing Oregon out of existence.

Please submit this to the committee before the meeting, or in the meeting package, or forward it to them on email, whatever is the usual method of transmittal, but I prefer they see it before they meet.

Thank you,
