

Hello -

I am writing in opposition to HB4099 & HB4138.

I have not seen studies related to erosion on the banks of the Willamette River caused by Wake Enhancement Devices. I live on the river, and have never been asked about erosion or dock damage. I hope that studies can be done to substantiate these two bills.

Thank you for hearing my opposition to HB4099 & HB 4138.

Thank you!
