**Subject:** **Pedestrian Footbridge in Bend**

Dear Legislature,

I am a third generation, lifelong Oregon resident. I hike, camp, and respect wilderness and nature in our beautiful state.

However, I am in FAVOR of the proposed pedestrian footbridge in Bend. It is in an area that is just south of downtown Bend, is along an already established walking trail, and abuts a housing development. Bend Park and Rec has done an remarkable job in creating a network of walking trails along the river going north and south of Bend. This bridge is the needed connection across the river.

Please put thought into making this pedestrian bridge a reality.

Thank you, Susan Klarquist
