All Oregon long term care (LTC) facilities, commonly known as nursing facilities, are subject to the assessment except for two Oregon Veterans' Homes (The Dalles and Lebanon), which are exempt. Under current law, the assessment rate is set annually and it stands at \$23.68 per occupied bed day for the period beginning on July 1, 2017 and ending on June 30, 2018. For the 2017-19 biennium, LTC assessments are expected to raise \$122.4 million, which in turn will be matched by \$211.4 million in federal funds. The current sunset of LTC assessment is June 30, 2020.
