

Dear President Courtney, Majority Leader Burdick, Speaker Kotek

**I oppose these bills,**

I listened to the hearing on HB 4001 and SB 1507.

It is astonishing that these bills are being done during a short session! There is not enough time for vetting.

The British Columbia representative never addressed the roll-down costs that Senator Olson presented. As British Columbia has rammed their program down the throats without regard to the costs.

I'm retired and live on a limited income, living 30 plus miles from our Doctors and shopping, we have no choice but to drive, and alternative transportation is not an option.

I hope that you will consider not passing these out of committee.

Thank you,

Bob Sowdon  
Cottage Grove
