

It is so sad that our elected reps can't figure out that the solution to murders is not more gun control but less.

All someone has to do under this warped Bill is to lie. Then also under this Bill with no DUE PROCESS or Deposing and cross examination of the accuser under Oath, authorities are allowed to steal/confiscate legally owned firearms... the method of self-defense that has to be used over two million times a year.

Most of the vulnerable people are women, elderly and disabled... Perhaps that is the real issue... Some Democrats have decided there are too many women, elderly and disabled so this Bill was launched to reduce this population via murder.

This and many other gun confiscation Bills which Democrats call "common sense gun control" is designed for one and only one purpose... to make good, innocent people vulnerable to murder. These people should be ashamed of themselves.
