

I strongly urge you to vote NO on the dangerous bill.

This bill is nothing other than a back door law to disarm law abiding citizens.

Nowhere in this bill is there protection for faults accusers to be prosecuted. Some are saying, well there are laws on the book that do this. Well maybe so, but how did that workout for the poor guy in Bend? Not so well that's how. DA's are weak in bringing chargers against these faults accusers for fear that it will discourage others from coming forward.

There is no Boyfriend loophole! This is a made up term by the anti-gun people.

There is already laws on the book to protect the domestic abused. Use them!

Again this bill will do nothing to protect the abused. If someone is going to break the law, another law will not stop them!

Again I strongly urge you to vote NO on HB 4145.

Thank You

Dan Drayton
