

Testimony in opposition to HB 4145 at the Senate Judiciary by Manuel J. Martinez

Deadly assaults to citizens in public places, not limited to schools and criminal domestic violence, must be severely condemned. Individuals perpetrating those criminal acts and/or anyone connected with it, must receive the highest penalties existing in our laws. There is no justification for such behavior or these sorts of executions at any level of a society.

We have in our laws numerous restrictions and regulations to properly prevent these massacres and the criminal violence referred. Unfortunately they are not carried as mandated. Political interference, weakness implementation, uncontrolled libertinage confuse with Freedom, unstable mentally individuals and groups/organizations obsess with power, are the sole culprits. Not mentioned the ignorance given to warning signals for an unfolding criminal act to be committed. Socialists, Liberalists, Anarchists, Communists, Democratic Socialist as described by Frederick Engels, or any other radical philosophically dogma wants to blame guns instead of the perpetrators for these criminal actions. They want more bureaucratic restrictions, to the rights of law abiding citizen to bear arms, as guaranteed by the 2nd Amendment of the Bill of Rights in our Constitution.

They with hypocrisy used these incidents, criminals in total, proposing HB 4145 claiming "safety" as the reason, which is a farce. They try to hide the real reason which eventually and gradually is to eliminate the 2nd Amendment, the sole guardian of our Rights and Liberties. This ill-fate, **manufactured HB 4145 is a Marxist Law**. Emphatically I denounce it. There is no room in this pristine Land for implanting any law injecting Marxism. I lost my native Land by the same type of hypocrites claiming the unnecessary possession of arms in the hand of the citizen. They claim that government is the only protection. They used epitomes like "Mothers for Peace" similar as the ones here "Moms demand action" and other similar palatable phraseologies to implant Marxism and destroy a country for the benefits of criminal rulers. Unfortunately I learned my lesson the hard way by experience. You may con all of the people for some time, you may con some of the people all the time, but you cannot con all of the people all the time. Most of you have no idea what Freedom is.

Freedom is a priceless jewel, once lost would take an enormous amount of martyrdom to seek its return.
