

This bill however well intended is seriously flawed and opens its use for malicious reasons and not as intended. An angry ex or past acquaintance for that matter can for whatever reason use this and what's worse is that if the individual opposes it and fails then there's the very real threat of losing their second amendment rights under federal law. This is clearly an overreach of government and a end play for the anti second amendment bunch in salem. Finally it's just wrong and I oppose it. Thank you for your consideration.

Sincerely, Kevin Burger
