

Hello, My name is Nicketes Newton I wanted to let my state government know I oppose bill HB4145 it is wrong and there is nothing in it that's constitutional compatible with our state constitution and our U.S constitution. it's purpose is to perform a illegal act and war on good citizens. it also doesn't protect anybody but Mike Bloomberg interest. To perform a infringement this means it's against natural law of this great state of Oregon and of our United States of America I oppose and will not stand for law breaking backstabbing laws and public servants. You will be voted out because of this plain an simple! we as good citizens will not forget who accepts this bill of illegal infringement. I stand for the fourth amendment and I stand with the second amendment of United States Constitution shall not be infringed.
