

RE: HB 4135

Please NO on HB 4135

Last words at bedside

3/17/17 @12:04am

P.S. We all have #6 been eating, drinking & breathing aluminum from chemtrails for over 10 years, which one of us will get alzheimers & dementia next?

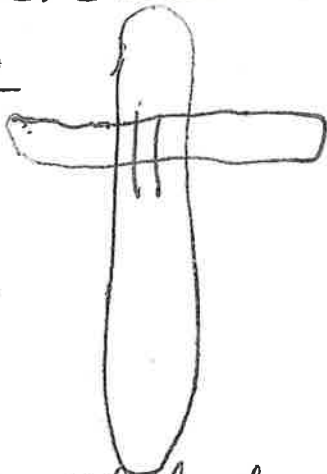

1. I need the courage to reach out to Jesus
2. Can this be the year we go to Hawaii?
3. I was talking to Jesus about my foot
4. I told Him I followed all the instructions
5. If you have any crosses left over drop them in the box (Palm Sunday is 4/9/17)

Please NO on HB 4135

Thanks Karen 808-226-3335

These are the last words of my mother in her end of life with dementia/alzheimers in a semi-comatose condition even while on morphine and lorazapan (seditive). She passed 3 weeks later @ 5:30pm on Palm Sunday.

She spoke of the exact day of her passing. She was talking about the palm branches that one makes crosses out of. Her spirit is very much alive within her until the last Natural breath.

No one should decide to withhold food and water. They can still feel pain til the end.

Thank you, Karen Goodness/Silverton
