

Opposition to HB 4138

Please reconsider the changes imposed from this potential bill. This bill would have a huge impact on recreational boating on the Willamette in a negative way, throttling thousands of families across Oregon who come to wakeboard and surf on the river. Myself, as well as my family and friends spend a few days a week in the summer enjoying the river on our boats. Please don't succumb to a handful of homeowners along the river lobbying to restrict quality family fun on this beautiful stretch of water. Thank you for reconsidering.
