##### **BACKGROUND:**

Currently, there are five states in the country that have implemented first-time home buyer savings account programs: Montana, Virginia, Colorado, New York, and Mississippi. All of these programs have similar requirements to use the funds for costs associated with first-time home purchases. Oregon Housing and Community Services provides homeownership programs assisting first-time homebuyers through securing loans, accessing homeownership education, and homeownership counseling.

Document recording is a duty of county clerks required under Oregon law for certain real property records including but not limited to deeds, mortgages, and contracts affecting the title to real property. Currently, the document recording fee for affordable housing is set at \$20. Funds from the document recording fee are dispersed to Oregon Housing and Community Services (OHCS) to implement three housing programs – the General Housing Account Program (76 percent), Home Ownership Assistance Program (14 percent), and Emergency Housing Account (10 percent). Within each program, 25 percent of the funds deposited are dedicated to fund veterans housing assistance. In 2017, OHCS received and distributed over \$15 million through these programs.

House Bill 4007-A allows individuals to establish a first-time home buyer savings account and increases the document recording fee for affordable housing from \$20 to \$75.
