**Subject:** Potential amendment to HB 4031A  
**To:** [htp.exhibits@oregonlegislature.gov](mailto:htp.exhibits@oregonlegislature.gov)

To: Chair De mbrow and Members of the Senate Committee on the Environment and Natural Resources:

We understand there is a strong possibility that an amendment is being proposed to HB 4031A which is designed to make an end-run around appropriate and usual land use procedures. The amendment would change the designation of the Lanphere property at Exit 282B on I5. We live very close to this property and strongly object to this attempt to avoid the normal land use procedures in order to accomplish a land use designation that has the opposition of local communities, governments and Clackamas County.

Please oppose any attempt to push through such an amendment. Mr. Lanphere should attempt to do it the right way.

Thank you.

Judge R. William Riggs
