

My name is Ann Pimentel. I live in Grants Pass. I am writing to urge a NO vote on HB 4135. I was present at the deaths of both my parents within the past two years. This was precious time, the time of death, and the manner of death and how the entire process unfolds. I cannot imagine urgent life and death decisions being made for the convenience of others, or for financial considerations alone. It is inhumane to withhold basic physical needs, when a person is unable to speak for himself or herself. Please vote NO on HB 4135 and prevent the further erosion of basic human rights. Thank you.
