Subject: HB 4113

Dear Members of the Senate Education Committee,
I am writing in support of HB 4113, mandatory class size bargaining. Class size is a very important factor in school funding, student learning conditions, and teacher working conditions; thus, the entire school community has a stake in how to balance class size as an expense/benefit in relation to all the other expenditures and/or cuts a district might make.

This bill is not a mandatory class size bill, it is a mandatory discussion bill. If we are not discussing the elephant in the room, class size, we're not having a very realistic conversation. It's time to have one. Please support moving HB 4133.

Kathleen Jeskey
