

Chair Beyer,

I just saw the -10 Amendment! YIKES!

I oppose the 1-10 amendment as a reflection to oppose the will of the people who loudly rejected that persons illegally in the State should have any rights that are granted to US citizens or those here with legal status.

Dismayed by the wording "(2) Notwithstanding ORS 807.022, the department may not verify the documents described in this section.

Which will open up new forging operations in the State of Oregon!

Whereas it should read that all Documentation will be verified!

Stop trying to pull the wool over the eyes of Oregonians, we are not stupid!

Thank you,

Bob Sowdon
