COHO Support for HB 4018B

The Coalition for a Healthy Oregon (COHO) is an association of seven Coordinated Care Organizations (CCOs) across Oregon. As community-based organizations, CCOs are accountable to the communities they serve. The coordinated care model has been a highly transparent process through our community advisory councils, our quality metrics, our Community Health Improvement Plans and Transformation plans, as well as through our publicly disclosed financial information and statutorily required community engagement at the CCO board level.

Oregon's coordinated care model has been vastly successful, producing better health outcomes, while reducing costs. COHO is committed to further improving the public-private partnership that has resulted in improved, integrated care for Oregon's most vulnerable citizens. We look forward to continuing to work with the Oregon Health Authority, the Oregon Health Policy Board and the Legislature to further improve the delivery system for the Oregon Health Plan.

HB 4018B continues the collaborative community process that has made our state a healthcare leader and furthers the goals of the Triple Aim.
