Analysis:

The bill provides additional enforcement capacity to the Office of Child Care, within the Oregon Department of Education, and increases civil penalties for violations by child care facilities. An existing requirement is deleted from statute which obligated that a written warning must be issued for a violation before assessing a civil penalty. A child care facility's certification or registration/renewal application may be revoked or denied if the facility fails to pay a civil penalty after the order imposing the penalty becomes final.

As amended by the -A2 amendment, the bill would divert these civil penalties from the Child Care Fund to the General Fund. This would reduce existing ODE Other Funds (OF) projections by \$9,031 in the 2017-19 biennium and \$14,450 OF in the 2019-21 biennium. Existing civil penalty revenues, as well as additional revenues resulting from the fee increase, would increase the General Fund (GF) by an estimated \$72,290 in the 2017-19 biennium and \$115,664 GF in the 2019-21 biennium. The Legislative Fiscal Office notes that the revenue projections assume that childcare facilities rectify violations within one day of the penalty assessment, as the new civil penalties can be assessed on a daily basis.

The Office of Child Care reports that the additional enforcement capacity provided by this bill is anticipated to have no fiscal impact. The impact to Department of Justice, related to contested case proceedings, is anticipated to be minimal and absorbable within existing budgetary parameters. The table on the following page outlines the current civil penalty structure and estimated revenues based on the new maximum penalties.

Violation Description	Current Civil Penalty Structure			New Civil Penalty Structure		
	Maximum Penalty	Average Quantity Per Biennium	Average Revenue Per Biennium	Maximum Penalty	Estimated Quantity Per Biennium	Maximum Revenue Per Biennium
