Subject: Cap and Trade, aka Pay to Pollute and crippling taxes to poor
Date: Monday, January 13, 2020 3:47:54 PM

Testimony is called for this week:

Please consider pulling back these crippling gas, including natural gas taxes or at least raising the limits further before you drive more businesses and families out of Oregon.

My friends are closing their long-term furniture business due to payroll and other high taxes and plan to leave Oregon due to further proposed taxes. Please do NOT vote for this revised Cap and Trade bill.

I request this to be read in as formal testimony
