Subject: Cap and Trade
Date: Monday, January 13, 2020 5:42:55 PM

Respectfully, this Cap and Trade legislation will do nothing other than cost working Oregonians more money. Oregon is not responsible for global warming or plastic dumped in the ocean. Oregon families are among the most environmentally conscious people in the world. Blaming Oregonians for the environmental “crimes” committed by China or India or Malaysia is ludicrous. The only point of this scheme is to transfer wealth from Oregon residents into the coffers of government to be wasted!!!!

No on Cap and Trade.
