i as a citizen of oregon do NOT support this bill in any way shape or form and i think it is disgusting that you would entertain passing it without a vote from the people of oregon. i disagree with the concept and everything else about this bill.. it will not only be a job killer, it will destroy many businesses in Oregon no matter what part of the state they are in. To say, they will postpone or exempt parts of oregon just puts a further burden on other areas. Please stop your runaway legislation that will not only impact many jobs but think of the families your going to force out of business that will have to either relocate or start from scratch.. don't be so heartless. count on me to work hard to vote every single one of you out of office that vote yes for this bill. Oregon might be a blue state today but it will be a red state come november. thank you
