Hello, my name is Allen. I live in North Albany, drive truck for a living and my job depends on small business. The fuel costs for the mom and pop company i drive for are very high. They do their best to keep the doors open and the lights on so I can work. The taxes are a burden for them and i always commend them for doing what they do and that is doing their part for me and my fellow drivers to keep us on the road. Thank you for your time and consideration.

Sincerely Allen D Hannon
