---

Hello:

I'm Mike Stack, I live in West Linn and I am a small business owner who has customers in Redmond, Bend, Madras, Prineville, Ashland, Medford, Grants Pass, Roseburg... I think you see I work throughout the state and as I read it your proposed bill LC 19 will only hurt small business and the rural communities and it looks as if the Valley legislators just want to be able to say "We're helping the man made global warming issues". That is a very arrogant position to take. Little Oregon is hindering its businesses and hurting families when big polluters like China, Indonesia... don't do anything. Symbolism over substance.

My rural customers are frighten of this because they don't know how much it will cost them and I can relate because as a small business owner tiny increased in a supply can impact my bottom line which is how I am able to hire people and grow my business.

Please cancel LC 19, it's bad for real people in rural Oregon and the Valley people who "care" will find something else to complain about.

Thank you for reading this.

Mike Stack
