Re: Legislative Concepts outside of national authorized intrastate contract(s)

This is just a reminder of all my previous caveat/notice to Oregon legislative matters.

I am steadfast in warnings against any suggestion of simulating the suborning of perjury of your oaths of offices during and outside of official sessions.

I formally object to any chilling of, or infringement of, my secured rights. Legislative violators are forbidden and held accountable.

What does "accordingly to the best of my ability" mean to each one of you?

Please take heed that many are watching for process that is due our patronage.

I await each of your personal replies.

Sincerely,

Dale L. Hitt.
