---

Hello,

I am writing in support of the cap and trade bill being considered for this year. Climate change is a market failure that will devastate our health, our economy, and our world in my lifetime.

We are already seeing reduced snowpack at our beloved Crater Lake, as well as a significant drop in tourism from our erratically smoky summers. We need to correct it now for the sake of all the young people who will inherit this mess. Thank you for creating bold, science-based policy on climate- let's get it passed this year!

Best,

Jeremiah Church  
Ashland, OR
