---

I would like to oppose any proposal related to a "Cap and Trade Bill" in Oregon. It has been shown that there will be a significant impact on rural areas and working class people throughout the state. The estimates that I have seen are an unreasonable burden. I am a life-long Oregonian and can not believe that we are letting our state become another California, which is in such a state of unretrievable economic loss and unfavorable living conditions.

Steven K. Long D.M.D.
