Dear Committee Members,

I want to let you know that, as a resident of Central Oregon, I strongly support climate action legislation that uses the cap and invest approach.

I am convinced that climate change is the biggest threat facing Oregon and the world, and the time is now to act, and Oregon can and should be a world leader on this. I believe this will help grow our economy, rather than harming it.

Please do not water down last year's bill in an attempt to gain Republican support, which doesn't appear that it will come anyway.

Thank you,
