---

I support a strong cap and invest policy!

I support LC19!!

I am an Oregonian that is terrified by the climate crisis. CO2 is rising in our atmosphere at a faster rate than at any time in geologic history.

It is rising faster than it did 252 million years ago during the Permian Mass Extinction when 97% of the species of animals on earth were exterminated.

Act now before it is too late!! Aggressive reductions in CO2 and Methane emissions will be required to avoid an equivalent catastrophe – or worse.
