Subject: Support for LC 19 Cap and Invest Legislation
Date: Friday, January 17, 2020 4:43:04 PM

Senate Interim Committee on Environment and Natural Resources,

I am writing in support of a strong cap and invest policy and I support LC 19 with its proposed improvements to address climate change. I am a rural Oregonian and parent of a young child. I want her to grow up and not have to worry about the natural resource and economic risks associated with a changing climate and know that we, as Oregonians, did everything we could to reduce the impacts that have resulted from our lifestyle and economic choices. The science is in, we need to do something. I encourage the Committee to establish and support legislation that is effective at reducing GHG emissions, while minimizing the economic burden of everyday Oregonians. I believe Legislative Concept 19 does just that. Thank you for your time.

Kind regards,

Justin Saydell
