I support LC 19 for Oregon's future. I am a rural Oregonian who doesn't like high gasoline costs. But if oil producers and markets raise the price 10-50 cents per gallon, which happens regularly, where is the outrage?

Rather than sending the money to Texas, Canada or overseas, at least with this legislation we will get more Oregonians working today and help future generations in general.

Please support LC 19.

Thank you.
