As an Oregon resident since 1948, I have been proud of our environmental record--to keep Oregon Green. But now the climate crisis is threatening the environment we cherish and depend on. Here on the Central Coast, we are threatened by rising sea levels, increasingly violent storms and storm surges, and the threat of wildfire.

I am also the proud great-grandmother of four, and I fear for their future if we do not cut carbon emissions drastically and soon.

In hopes of mitigating the damage we have already done, I support a strong cap and invest policy/I support LC 19 with improvements for climate/I support strong climate legislation for Oregon's future.
