Subject: Public comment on LC 19
Date: Friday, January 17, 2020 6:17:34 PM

I am a retired person who moved to Oregon from Florida to find like-minded people who want to preserve the environment and work to fight climate change. I am terrified of climate change for the sake of my children and grandchild. We have to do something besides let corporations destroy and pollute. I strongly and completely support the passage of LC 19.
