I support a strong cap and invest policy, with strong climate legislation for Oregon.

I am a parent, and a grandmother, and I ...and literally 100's of my friends and relatives have worked hard to get last years bill passed. We CANNOT keep waiting, as things are evolving quickly to destroy our plants, animals and all interrelated forms of life.

I will not kow-tow to Republicans who are not going to help the reduction of CO2 in our state and in our world. Please be strong and get a GOOD bill out there.
