Subject: In support LC 19 with Improvements for Our Climate
Date: Tuesday, January 21, 2020 9:25:29 AM

Greetings All,

I wish to inform you that I support a strong cap and invest policy.

I support LC 19 with improvements for our climate.

I support strong climate legislation for Oregon's future.

I grew up in and still live live near a small southern Oregon city. My existence is a combination of rural and urban, mostly rural. I rely on the agriculture that I practice as well as that of my neighbors. I am a 5th generation Oregonian and raised my family here.

I have grave concerns about our current situation in relationship to our environment and climate change and believe that we need to address this through strong legislation.

Respectfully,
Steve Erickson
