Subject: Pass climate change policy in 2020
Date: Saturday, January 18, 2020 12:12:37 PM

Please fight the industry opposition trying to flood the Oregon Capitol with lies that suggest Oregonians DON'T support strong and equitable climate policy.

Overwhelmingly, we know Oregonians are dedicated to getting A bill passed in support of bold climate policy. [Can you join us](#)? Will you share why everything we know and love is on the line this year?

My three year old niece's future is on the line. I'm worried that if we fail to act, she will have asthma, like me.

I hope you **support passing climate policy in 2020.**

We're in this together, and now is the time.
