I am a mother, a grandmother, an Oregon taxpayer and a voter. I support LC 19, and think it is very important to develop cap and invest legislation to mitigate the effects of climate change. We must take into account the different circumstances of people in different parts of the state - although I live in Eugene I have done a number of Artists Residencies in Eastern Oregon (Seneca, Unity, Pendleton, Boardman, etc.) and I realize that there is a very different orientation to these issues. We must find a way to work together, because climate change will affect us all.
