Please consider my request to issue a strong cap and invest policy, LC 19 with improvements for supporting strong climate legislation for Oregon's future.

I am a parent, a great aunt, and I work in the field of early intervention supporting young children with and without special needs and their families. The impact of the climate crisis on the earth and all who live on it is terrifying. Without drastic changes there will be no future

Please support the new cap and invest proposal, currently known as Legislative Concept 19.

Best,
