Dear Oregon Legislators:

What we do NOW, THIS YEAR, could well determine the livability of our planet. Whatever economic excuses you may try to make to not protect our state against climate change are nil and void. If we don't act now, it will be too late. Our children and grandchildren will have no future, no economic future, unless we support a strong cap on carbon omissions. The bill in front of you does that with allowances to help disadvantaged communities. Act now.

Sincerely,
Dana Furgerson

Dear Legislators:

I support LC 19. We need to act now to avoid the worst of climate change. We will have no economy to protect unless we act now to protect the environment of our state. Pass climate change legislation today PLEASE.

Sincerely,
Dana Furgerson
