---

As a senior living in Portland, Oregon, I support strong climate legislation to ameliorate the affects of global warming on all us--now and into the future!

LC 19 is a good start, but we need a bill that establishes a declining cap on ALL greenhouse gases, makes ALL polluters pay, and provides incentives for industries to transition quickly to "clean" energy use.

We need to act "sooner rather than later"--LIKE RIGHT NOW! We absolute MUST reach the goal of NET ZERO GREEN HOUSE GAS EMISSIONS BY 2050 or sooner. Heck, I'm even willing to give up driving my 2008 Honda Fit to help reach this goal!

Respectfully,

(Mr.) Darvel T. Lloyd (age 77)
