Subject: Act NOW for the future of all beings
Date: Saturday, January 18, 2020 5:39:59 PM

Dear Senate Committee Environment and Natural Resources,

Please consider this testimony in favor of strong climate action in 2020.

Let's make public transportation zero emission! Let's support renewable energy for businesses and homes!
Let's step in the right direction to make the next coming years, years that will support the future instead of destroy it.

Please support strong climate action and a Green New Deal so that we can slow the inevitable warming of the planet. We must do it now. We have much less time than you think to make radical change. The use of fossil fuels should be illegal, there are better ways to go about energy. Let's act now.

Sincerely,
Gabriele Barta
