Subject: Public Comment on LC 19
Date: Saturday, January 18, 2020 2:08:04 PM

I am a small Solar installer on the Oregon Coast. It is so important that the state stands up to special interests and passed meaningful Climate Legislation. I support a strong cap and invest policy. I support LC 19 with improvements for climate. I support strong climate legislation for Oregon's future. I can see first hand how climate change is changing the Oregon Coast. I want the legislature to listen to the real voice of rural Oregon. We are demanding action on Climate change now. It has been way to slow coming. We have to make a meaningful reduction of our carbon footprint. I suggest using Wind, Solar, and efficiency upgrades to get us to our goals, as well as the Cap and Trade.
