Subject: Climate Legislation
Date: Saturday, January 18, 2020 2:23:01 PM

For the sake of our children. Grandchildren and humanity, please pass a strong cap and trade bill this session.

Please remember. Many of the supposed "regular" people who say it will hurt their jobs are actually pawns for big business, oil companies and lumber industries. These are dying, Old-fashioned climate-destroying mega corps. Follow the money.

Please do the right thing.

Thank you for all you do.

Susan Connolly
