Subject: support for L 19
Date: Sunday, January 19, 2020 6:33:12 PM

As a mother and grandmother in Southern Oregon, I urge support for a strong LC19. Climate-driven wildfires in our region are already devastating--not just to my sons' health and livelihoods, but the world our grandchildren will inherit. The Oregon legislature's stated intent to reduce greenhouse emissions date back more than a decade. Now--with LC 19--we can embrace a only pragmatic approach to actually reduce greenhouse gases while benefiting Oregon's economy.
