Subject: support for LC 19
Date: Sunday, January 19, 2020 12:37:42 PM

Hello,

My peers--not normally the types to send this kind of thing to me--have put LC 19 on my radar.

I was born in Oregon nearly 50 years ago. It is my home! I am a small business owner and I employ seven more Oregonians. My wife and I have raised two sons here. And I support strong climate legislation for Oregon's future. Addressing the path of climate change face-on with bills like LC 19 is important to me. So let's do this.

Best regards,
Jason
